

**Ahoy Boat Owner! Need to Varnish Aboard? Keep it steady with**

# **CAN-PORT** <sup>tm</sup>

A neat holder for can, lid, brush & beverage!

## **CAN-PORT is remarkable**

- holds the can snugly to prevent spills
- is steady on the sloped deck
- has a place to set a wet brush
- stows the can lid
- keeps sandpaper from flying away
- keeps a beverage handy
- is easily moved about -  
the foam is firm enough to carry  
with one hand
- is re-usable from year to year -  
no clean-up needed

Before using, line the brush and lid slots with a small plastic bag to prevent varnish from seeping through the foam. Keep the bag in place with a few straight pins. When done, simply throw away the bags.
